NGÔ ANH VŨ

FRONT END DEVELOPER

> Hi, I'm a software developer. I can use many programming languages including Javascript, ReactJS, HTML, CSS.
> I have always been passionate about learning new technologies and applying them to solve complex problems. I am a team player and enjoy collaborating with others to create innovative solutions.
>
> In my spare time, I enjoy working on personal coding projects and staying up to date with the latest industry trends. I am also committed to continuous learning and professional development.
>
> Thank you for taking the time to learn a little about me!
